Ahmed Rabie

Backend Developer

Portfolio: github.com/ARMMM96
linkedin.com/in/ahmedrabie96

Results-driven Backend Developer with 4+ years of experience building scalable server-side applications and RESTful APIs. Proven expertise in Node.js, Express.js, Socket.io, and database architecture with a track record of delivering real-time chat applications, CRM systems, and enterprise solutions. Passionate about developing robust APIs and eager to contribute technical excellence to forward-thinking teams while tackling complex backend challenges.

SKILLS

Backend: Node.js, Express.js, Fastify, Socket.io, Java, Nest.js, TypeORM, GraphQL
Frontend: HTML5, CSS3, Bootstrap, JavaScript, TypeScript, Angular, React, Next.js
Databases: MongoDB, NoSQL, SQL, PostgreSQL, Prisma, Mongoose
API Development: RESTful API, GraphQL, API Integration, Real-time Communication
Testing and DevOps: Jest, Git, GitHub, CI/CD Pipelines, Docker
Operating Systems: Linux
Server Management: VPS Deployment, Configuration, Security, SSL Certificates
Concepts: OOP, Data Structures and Algorithms, SOLID Principles, Microservices Architecture
Design Tools: Adobe Photoshop, Adobe Illustrator

PROFESSIONAL EXPERIENCE

Full Stack Developer **July 2025 - Present**
The Waseet *Cairo, Egypt*

- Collaborated with product owners and quality assurance engineers to align features with business goals and software quality standards.
- Implemented responsive UI features based on Figma designs using React and Next.js, ensuring visual consistency and optimal user experience.
- Developed scalable backend services using Nest.js, Express, TypeORM, and GraphQL to support complex business logic.
- Implemented TypeScript across full stack to enhance code quality, type safety, and long-term maintainability.

Backend Developer - Node.js **December 2023 - July 2024**
Trust Edge *Cairo, Egypt*

- Designed and implemented efficient data models for real-time chat applications, optimizing query performance by 40 percent.
- Developed real-time messaging features using Socket.io, supporting 10,000+ concurrent users with low latency.
- Integrated Firebase Cloud Messaging for push notifications, achieving 95 percent delivery rate across mobile and web platforms.
- Architected WebSocket infrastructure for bidirectional communication with automatic reconnection and message queuing.

Web Developer - MEAN Stack **January 2023 - June 2023**
Comma Solutions *Cairo, Egypt*

- Engineered RESTful APIs using Node.js, Express, MongoDB, and Mongoose for the Comma CRM system, serving 5,000+ daily active users.
- Integrated multiple social media platform APIs including Facebook, Instagram, and WhatsApp to centralize customer communications.
- Designed and implemented efficient data models with proper indexing, reducing database query response times by 60 percent.
- Developed responsive Angular dashboard with role-based access control and real-time data visualization features.
- Successfully deployed applications on VPS servers with SSL certificates, automated backups, and monitoring systems ensuring 99.9 percent uptime.

Backend Developer **January 2022 - December 2022**
Arms Consulting Solutions *Cairo, Egypt*

- Specialized in developing RESTful APIs with Node.js, Express, MongoDB, and Mongoose for a Real Estate CRM system.
- Executed design and implementation of complex data models with relationships across properties, clients, and transactions.
- Integrated CRM system with social media platform APIs to automate lead capture and customer engagement workflows.
- Managed deployment of applications on VPS servers with focus on security hardening, performance monitoring, and scalability.
- Created automated testing suite using Jest, achieving 80 percent code coverage to ensure reliability.

Web Developer*Visit Ventures***March 2020 - July 2020***Cairo, Egypt*

- Implemented interactive user interfaces and responsive web forms using Bootstrap and the CakePHP framework.
- Enhanced user engagement by implementing dynamic form validation and AJAX-based submissions for better user experience.

Web Developer*OSAIMI Medical Tourism***January 2019 - January 2020***Cairo, Egypt*

- Developed and maintained WordPress websites with custom themes and plugins, focusing on aesthetic and functional excellence.
- Created and optimized content for SEO best practices, improving website organic search rankings by 45 percent.
- Implemented on-page SEO strategies including meta tags, structured data, and sitemap optimization.

Frontend Developer*G22 Solutions***January 2017 - June 2018***Cairo, Egypt*

- Developed responsive frontend web user interfaces using Angular framework for enterprise applications.
- Implemented component-based architecture for code reusability and maintainability.
- Collaborated with backend team to integrate RESTful APIs and ensure smooth data flow.

EDUCATION**Bachelor of Management Information Systems, Cairo Higher Institute****2014 - 2018**

Grade: Good

Graduated with Excellence Graduation Project

CERTIFICATIONS AND COURSES**MEAN Stack Course, Orange Digital Center****2023****PHP, MySQL and Laravel Course, National Telecommunication Institute****2022****MEAN Stack Course, National Telecommunication Institute****2021****Frontend Development Nanodegree, Udacity****2019**
